

# 3MP SERIES

## Metallized Polypropylene

### Dry Film Low Loss AC Filter Capacitor

UL recognized component. Designed to handle high RMS currents for today's high energy AC filtering applications. **Available with optional thermal cut-out.**

#### FEATURES

- UL recognized
- Long Life: > 100,000 Hours
- Low ESR
- High RMS Current Capability
- High Surge Voltage Capability: 1.5 x VDC
- Flame Retardant
- Cost Effective Design
- Reference MIL-STD 202 & IEC 61071
- Flexible, Dry Film Fully Encapsulated Construction
- RoHS compliant

#### STANDARD CONFIGURATION

- Integrated Mounting
- Male Terminal Option
- Female Terminal Option
- Thermal Indicator Option

# Specification Summary

## Capacitance Range

20 $\mu$ F to 325 $\mu$ F

## Capacitance Tolerance

Standard capacitance tolerance is  $\pm 5\%$ . Tolerance of  $\pm 3\%$  is also available.

## Operating Temperature Range

-55°C to +85°C

Hot Spot Temperature Calculation:  $H.S. = T_{amb} + (I \times I \times R_s)$

## Enclosure/Construction

Dry metallized polypropylene in a thermoplastic housing with flame retardant potting. All construction materials meet or exceed UL94-V2 rating

UL file number: File E225556, Vol. 1

## Voltage Rating

VAC: 300 VAC to 900 VAC

VDC: 450 VDC to 1350 VDC

## Quality Control

Capacitors are tested 100% for:

- Capacitance
- Tolerance
- Dissipation Factor
- 1.5x Rated DC Voltage
- Insulation Resistance
- Equivalent Series Resistance (ESR)

Process and inspection data are maintained on file and available upon special request.

## Environmental

Parameter	Method	Condition
Vibration	204	D
Shock	213	I
Humidity	106	-
Thermal Shock	107	A
Life	108	F

Reference MIL-STD-202

Complies with IEC 61071

# Characteristics

## Dielectric Strength

Capacitors withstand a DC potential of 1.5 x rated voltage for one (1) minute without damage or breakdown. Test voltage is applied and discharged through a minimum resistance of 1 OHM per volt minimum.

## Dissipation Factor

Polypropylene has an intrinsic dissipation factor of less than  $2.1 \times 10^{-4}$  over the operating temperature range of -55°C to +105°C and frequencies to 1MHz.

# Detail Data

# Style

## 3MP Male Thread Type

# 3MP Female Thread Type

## Additional Information

The 3MP series is designed to handle high RMS currents for today's high energy AC filtering applications. This series has a robust integrated flange for versatile mounting positions along with male and female terminal options. It's most unique feature is that it has been outfitted to accept a thermal sensing device located at the capacitor hot spot. A normally open or closed thermal cut-out (TCO) is potted in the geometric center of the device. As the capacitor reaches critical temperatures the TCO opens and a user defined circuit will trigger the appropriate action. The capacitor can also accept other sensing technology per customer specification.

## How to Order

TYPE - 3MP Metallized Polypropylene	→	<b>3MP</b>
STYLE A-No thermal cut-off, S-Normally closed thermal cut-out, T-Normally open thermal cut-out	→	<b>A</b>
VOLTAGE 1 - 300 VAC, 2 - 530 VAC, 3 - 600 VAC, 4 - 900 VAC, 5 - 400 VAC	→	<b>1</b>
CAPACITANCE IN MICROFARADS Capacitance in $\mu$ F	→	<b>150</b>
TOLERANCE E - $\pm$ 3%, J - $\pm$ 5%	→	<b>J</b>
TERMINAL STYLE 1 - Male Thread (M6), 2 - Female Thread (M5)	→	<b>1</b>

### Marking And Date Code

All capacitors are marked with company initials "EC", corporate logo or EC trademark—in addition to type 3MP, capacitance, tolerance, rated DC working voltage and date code. The first two digits of the date code represent the year, the second two digits the week, i.e., 1252 is the 52nd week of 2012, 1202 is the second week of 2012.

### Quality Assurance

Major emphasis is placed on quality assurance. EC is an ISO 9001 and AS9100 Certified Company. Raw material inspection and the use of SPC manufacturing procedures assure the highest quality standards. Procedures are fully described in the EC Quality Control Manual. Electronic Concepts will continue to advance the state-of-the-art by utilizing leading edge technology, compact capacitor designs and establishing reliability procedures.

## Sales Offices

### United States Headquarters

Electronic Concepts, Inc.  
526 Industrial Way West  
Eatontown, NJ 07724  
Tel: 732-542-7880  
Fax: 732-542-0524

email: [sales@ecicaps.com](mailto:sales@ecicaps.com)
