

UL31 Series Film Capacitors

OFFERS "MUCH MORE" PERFORMANCE FOR HIGH POWER DC FILTER APPLICATIONS

High current carrying capability, a unique low profile and improved thermal conductivity. Now designers can maximize space utilization, performance and reliability-and realize production cost savings. Three styles. 100% tested.

Environmental to MIL-STD-202.

- INDUCTANCE AS LOW AS 25nH(AVAILABLE < 10nH)
- TEMPERATURE RANGE:-55°C TO +105°C
- LOW ESR
- CAPACITANCE TO 275
